

## Evidence-based Practice in Insurance Medicine

**Date:** 16<sup>th</sup> September 2020

**Time:** 13.30 to 17.00 hr.

**Place:** University Hospital Basel  
 ZLF Building, small auditorium

10 years ago, the University of Basel established a Clinical Professorship of Insurance Medicine to advance the production of evidence in insurance medicine. 5 years later, this chair founded the international Cochrane Insurance Medicine Field with partners in the Netherlands, Sweden, and Canada. Both activities made important contributions to professionalise insurance medicine in Switzerland and Europe and indicated directions for an insurance medicine based on clinical research that informs practice. We welcome you to celebrate these achievements with us and our collaborators in Basel and Europe at this pre-conference symposium to the international EUMASS congress.

13.00 – 13.30	<b>Registration</b>
13.30 – 13.45	<b>Welcome!</b> Prof. Primo Schär, Dean Medical Faculty, University of Basel
